15TH ANNUAL CASINO NIGHT | SPONSORSHIP

Friday, April 5, 2019 | Hyatt Regency Denver at Colorado Convention Center

Minds Matter of Denver is on a mission to prove that **it's access, not ability**, that limits college success for Denver students. We connect bright students from low-income families with the relationships and resources often reserved for more affluent peers, including: accomplished mentors who provide consistent guidance for three years, weekly college-prep instruction, and prestigious summer programs at top-tier universities. As a result *We Keep it 100:*

- **100%** of 10th and 11th graders attend a summer college prep program
 - **100%** of students graduate high-school on time
 - **100%** of graduates are accepted to a four-year accredited college or university
 - **100%** of graduates receive scholarships
 - **100%** of our graduates are guaranteed admissions and efforts to **meet 100% of financial need at the University of Colorado - Denver** (an unprecedented partnership nationwide).
-

We've had **1 Boettcher Scholar, 5 Gates Millennium Scholars, and 23 Daniels Fund Scholars**
200 point average SAT score improvement, 200 volunteers in Denver (only 3 paid staff)
290% growth in the past 5 years (from 29 to 85 students)!

We have expanded our programming to three sites this school year which is the first step in achieving our audacious 10-year plan: **to ensure All Our Kids In Colorado Earn College Choice**
